We are pleased to announce Palen Music Center's new Online Lesson Program! Private music lessons are the best way to learn how to play an instrument. In addition to the quality lessons given in many of our store locations, we now offer online lessons from the convenience of home! Whatever instrument you want to learn, Palen Music has a teacher for you. Each of our instructors have had background checks and are expert educators and performers. Lessons start at \$80 per month for weekly 30-minute lessons.

There are many benefits to online lessons: Enjoy the convenience of taking lessons from home, no transportation for younger students needed, flexible scheduling beyond our in-store hours, instructors can easily share music and handouts digitally, and easily keep track of goals in the chat window.
