

YAMAHA HD-300 HARMONY DIRECTOR

The Yamaha HD-200 Harmony Director has been wildly popular and Yamaha is excited to announce the new and improved HD-300 Harmony Director, available late spring or early summer 2021.

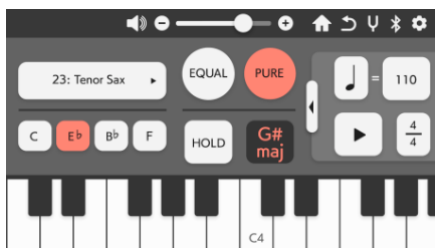

The new Harmony Director HD-300 combines the HD-200's powerful ear training with dynamic new educational features and a simplified user interface. The addition of a mobile app that can act as a stand-alone tuner as well as a hardware controller makes the new HD-300 a complete package that can not only make a teacher's job easier but also help their students play in tune, in tone, in time and at the correct volume.

- New simplified interface reduces the number of buttons from 51 to 32
- New educational functions include recording, time shift recording, sound back, rhythm style, and tempo LED indicator
- New lower price-point of \$699.99
- New mobile app (iOS only) featuring the ability to control functions from your device, control demonstration mode, tuner, chord detector, and rhythm assistant.

**HD Assistant
iOS App**

iOS - Remote Control

iOS - Tuner

iOS - Rhythm Assistant
